ABSTRACT SUBMISSION

The primary focus and content of the submitted abstract must be novel. Submission of the abstract implies that the abstract will not have been published in a scientific or professional publication prior to the presentation at the 15th Dresden Symposium on Autoantibodies.

The abstract must be informative, including a statement of the study's specific objectives, methods, summary of the results and concluding statement. Abstracts must be submitted together with a registration form of the presenting author either by e-mail to karsten.conrad@tu-dresden.de or using the online abstract form at <http://www.gfid-ev.de/dsa.htm>

The abstract handling committee (i.e. the co-chairmen and members of the international advisory board) will notify the authors regarding abstract acceptance and the form of presentation. **The abstracts will be published in the abstract e-book of the 15th Dresden Symposium on Autoantibodies.**

We are proud to announce the Dresden Prize on the study of autoantibodies, which will be awarded in 2021 for the 9th time. The prize of 1000 EUR is a young scientist award (up to age 35, born before September 11, 1986). The members of the prize committee will select the winner by submitted abstracts as well as short presentations during the meeting.

I fulfil the criteria for the prize award
